

FileMaker Pro 16.0.04 and FileMaker Pro Advanced 16.0.04 Release Notes

This software updates FileMaker Pro 16 or FileMaker Pro 16 Advanced to version 16.0.4, and fixes bugs.

If you are unable to successfully update to FileMaker Pro or FileMaker Pro Advanced 16.0.4, search the FileMaker Knowledge Base for installation information.

Software details

The following issues were addressed.

Important: To ensure that you don't encounter the issues below, you must update all clients to FileMaker Pro 16.0.4 or FileMaker Pro 16.0.4 Advanced.

Application

- Checking for updates when plug-ins were installed caused FileMaker Pro to close unexpectedly.

Scripts

- Insert File script steps did not perform correctly when the account's privilege set had available menu commands set to minimum.

Creating and managing files

- macOS: Scrolling in the Manage Database dialog box caused the application to close unexpectedly.
- macOS: Opening the Manage Value Lists dialog box when a reference to an external value list was missing caused FileMaker Pro to close unexpectedly.
- macOS High Sierra 10.13: Some options were not visible in the Save As dialog boxes until the dialog boxes were resized.

Layouts

- macOS High Sierra 10.13: Popover animation started from the wrong position.

FileMaker Pro Advanced

- macOS: Selecting the Script Debugger menu after a script had opened and closed a hidden external file caused FileMaker Pro Advanced to close unexpectedly.

Who Should Install This Software?

Platform	Product	Updates Version	Download 32-bit	Download 64-bit	Languages

	FileMaker Pro 16 Advanced		FileMaker Pro 16.0.4 Advanced Updater (setup.exe)	FileMaker Pro 16.0.4 Advanced Updater (setup.exe)	
OS X	FileMaker Pro 16		FileMaker Pro 16.0.4 Updater		
	FileMaker Pro 16 Advanced		FileMaker Pro 16.0.4 Advanced		

APIs, technologies, or features to be deprecated

As **FileMaker Pro** evolves, the list of supported technologies, APIs, and features will change. As part of this evolution, certain operating systems versions, hardware, and features may be deprecated in favor of newer ones. While deprecation does not mean the immediate deletion of an item, **FileMaker** recommends that you migrate your solution away from deprecated technologies, as these technologies may be removed in a future version of the product.

For the latest information about deprecated APIs, technologies, and features, search the **FileMaker** Knowledge Base. For information about new, changed, and removed features, see the most up-to-date version of **FileMaker Pro** Help, available on the **FileMaker** website.
